

Are you a Non-Medical Practitioner?

Your help will make a difference!

This is a **descriptive exploratory study** investigating **NMP roles** within healthcare care settings in the United Kingdom (UK). The research is supported by Coventry University and funded the National Institute for Health Research (NIHR).

Non-Medical Practitioner (NMP) roles include:

- Surgical Care Practitioner (SCP)
- Perioperative Specialist Practitioner (PSP)
- Surgical First Assistant
- Physician Associate (PA)
- Physician Assistant Anaesthesia (PA-A)
- Surgical Nurse Practitioner
- Advanced Clinical Practitioner (ACP)

...but may include other titles such as laparoscopic nurse/practitioner.

The **online survey** has ethical approval from Coventry University and is anonymous. The findings will help advance clinical practice in the UK, to be used to influence service and workforce development.

This survey is supported by the Association for Perioperative Practice (AfPP), Royal College of Anaesthetists (RCoA) and Association of Cardiothoracic Surgical Assistants (ACSA).

Your help completing the survey would be greatly appreciated and have a significant impact on the study which is available from 6th June - 30th September 2016, accessed by scanning the QR code or [Click here](#)
